Project Development Phase:

Milestone 1	Salesforce Account
Milestone 2	Object
Milestone 3	Tabs
Milestone 4	Fields & Relationships
Milestone 5	Validation Rules
Milestone 6	Page Layouts
Milestone 7	Flows
Milestone 8	The Lightning App
Milestone 9	Profile
Milestone 10	Role
Milestone 11	User
Milestone 12	Reports & Dashboards

Product Backlog, Sprint Schedule, and Estimation:

Sprint	Functional Requirement (Epic)	User Story Numbe r	User Story / Task	Story Point s	Priority	Team Member s
Sprint-1	Developer Setup	USN-1	As a system administrator, I want to create and configure a Salesforce developer account so that I can set up and deploy the Courier Management System.	3	High	Mohammed Waseem L
Sprint-2	Data Modeling	USN-2	As an admin, I want to create Customer, Shipment, Delivery	5	High	Mohammed Ibrahim Al

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Prio rity	Team Member s
			Agent, Branch, and Invoice objects with proper relationships so that courier data is stored and managed efficiently.			
Sprint-2	Data Modeling	USN-3	As a staff member, I want tabs and a Lightning App for all courier modules so that I can easily navigate and perform daily operations.	5	High	Mohammed Sulthan A
Sprint-3	Automation	USN-4	As a system, I want to validate shipment details such as delivery dates, addresses, and mandatory fields so that incorrect or incomplete records are prevented.	3	High	Dhamodaran J
Sprint-3	Automation	USN-5	As a dispatcher, I want automated flows for shipment status updates and agent assignment so that deliveries are processed faster without manual intervention.	3	High	Mohammed Ibrahim Al
Sprint-4	Security	USN-6	As an administrator, I want role-based access control for managers, agents, and staff so that sensitive shipment and billing data is secure.	5	High	Mohammed Waseem L
Sprint-5	Reports	USN-7	As a branch manager, I want reports showing delivery performance, shipment status, and revenue so that I can monitor operations and make informed decisions.	4	High	Mohammed Sulthan A
Sprint-6	Dashboards	USN-8	As a branch manager, I want dashboards showing delivery performance, shipment status, and revenue so that I can monitor operations and make informed decisions.	4	Medi um	Mohammed Waseem L

Project Tracker, Velocity & Burndown Chart:

Sprint	Total Story Points	Durati o n	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	20	1 Days	28 Feb 2026	01 March 2026	20	08 March 2026

Sprint	Total Story Points	Durati o n	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-2	20	3 Days	01 March 2026	03 March 2026		08 March 2026
Sprint-3	20	3 Days	03 March 2026	05 March 2026		08 March 2026
Sprint-4	20	3 Days	05 March 2026	07 March 2026		08 March 2026

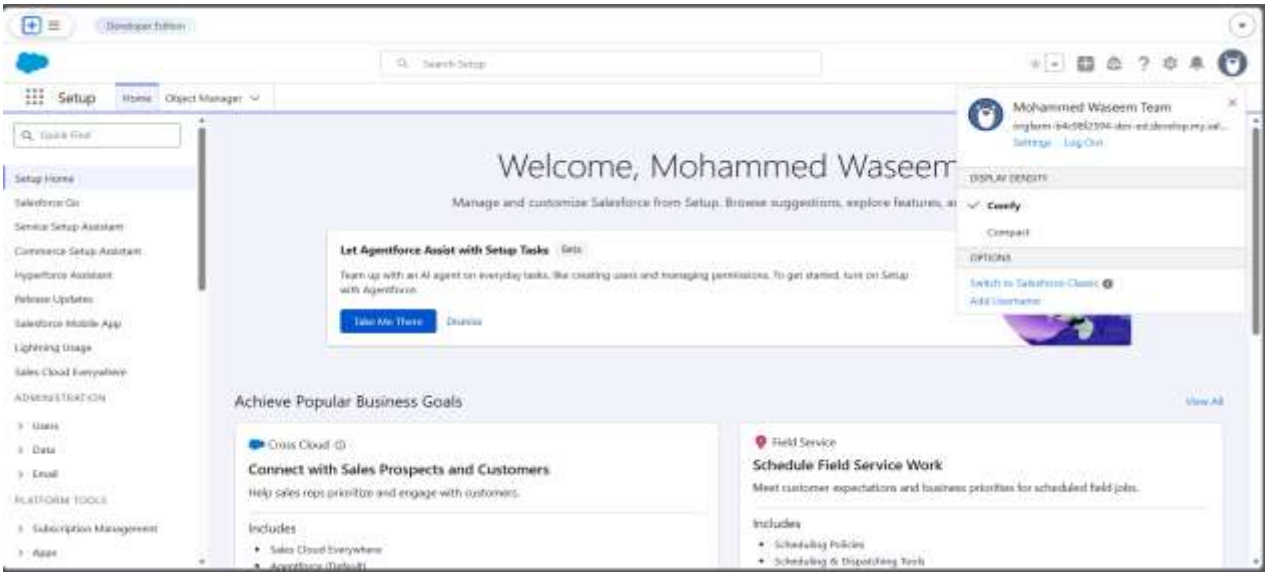
INTRODUCTION

- Courier and logistics companies face challenges in efficiently managing shipments and deliveries due to manual operations and disconnected systems. These issues lead to delayed updates, poor customer visibility, and operational inefficiencies.
- The Courier Management System (CMS) is a Salesforce-based cloud solution that centralizes shipment booking, tracking, delivery agent assignment, automated status updates, billing, and analytics. The system improves operational efficiency, enhances customer satisfaction, and provides real-time business insights.

Milestone 1: Salesforce Account Creation

- Successfully created account in salesforce developer edition

Here is the screenshot of my developer account creation:



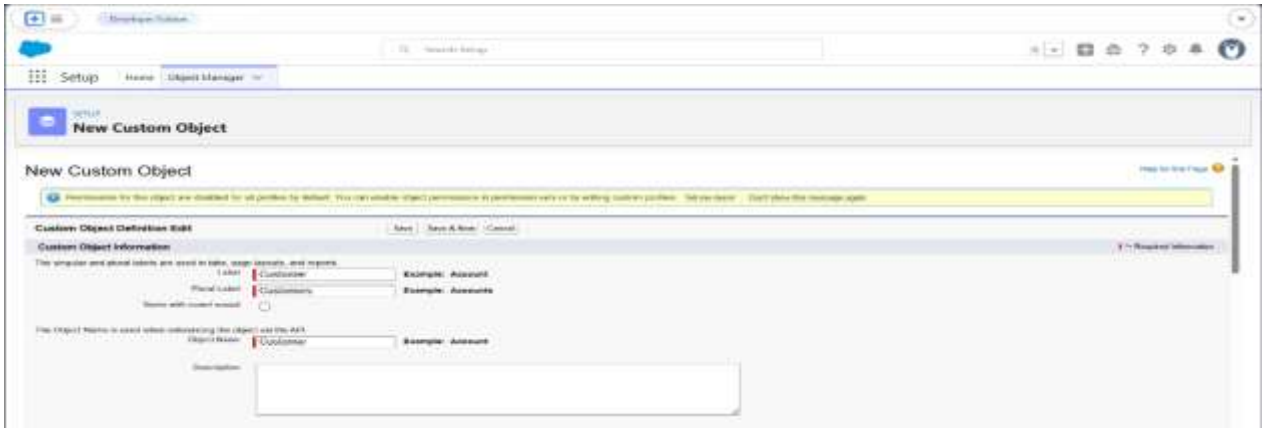
Milestone 2- Object:

Steps to Implement :

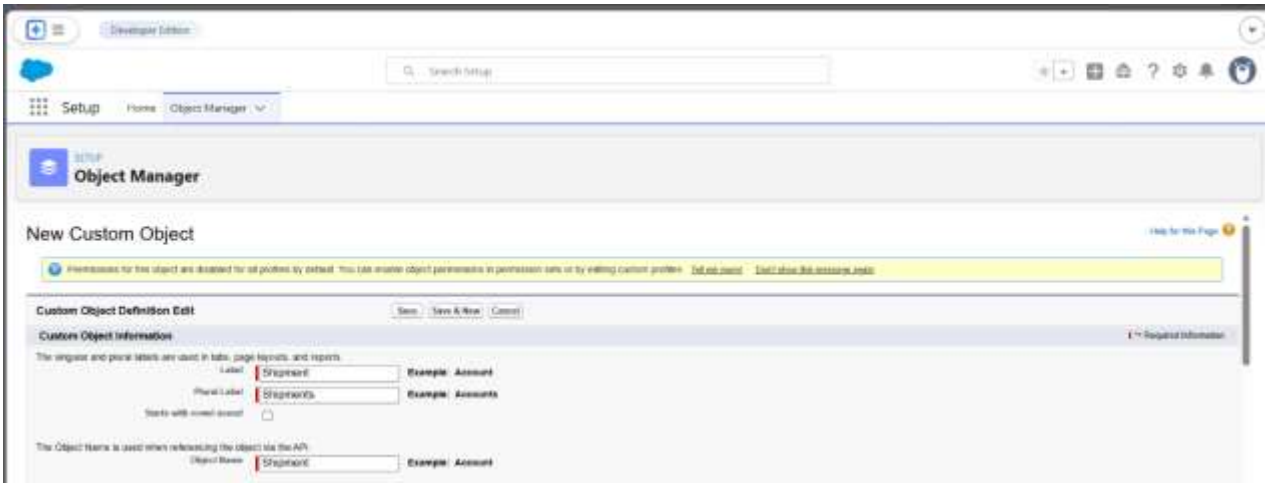
Activity 1: Create Customer Object

Creating new custom object named

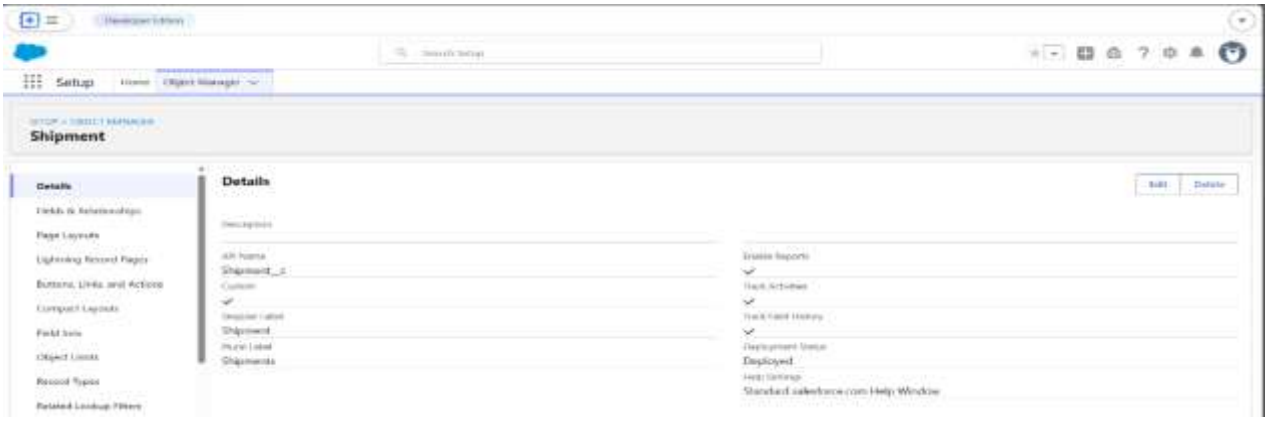
1.customer:



2.shipment:



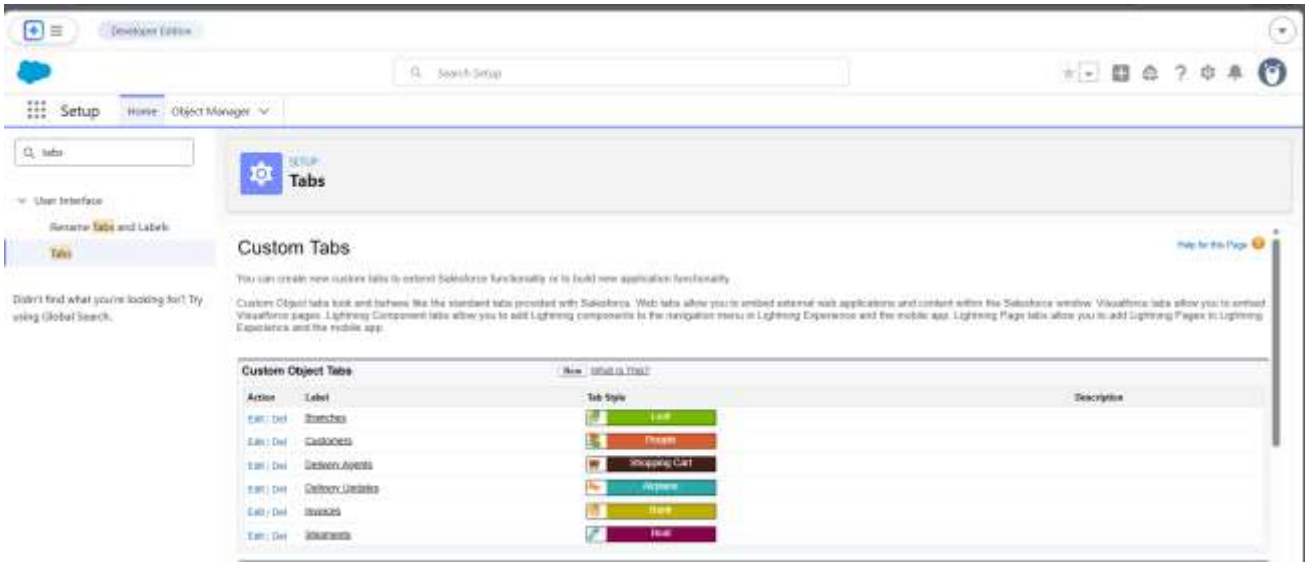
Successfully created shipment object



Milestone 3 – Tabs

Activity 1: Creating a Tab for Customer Object

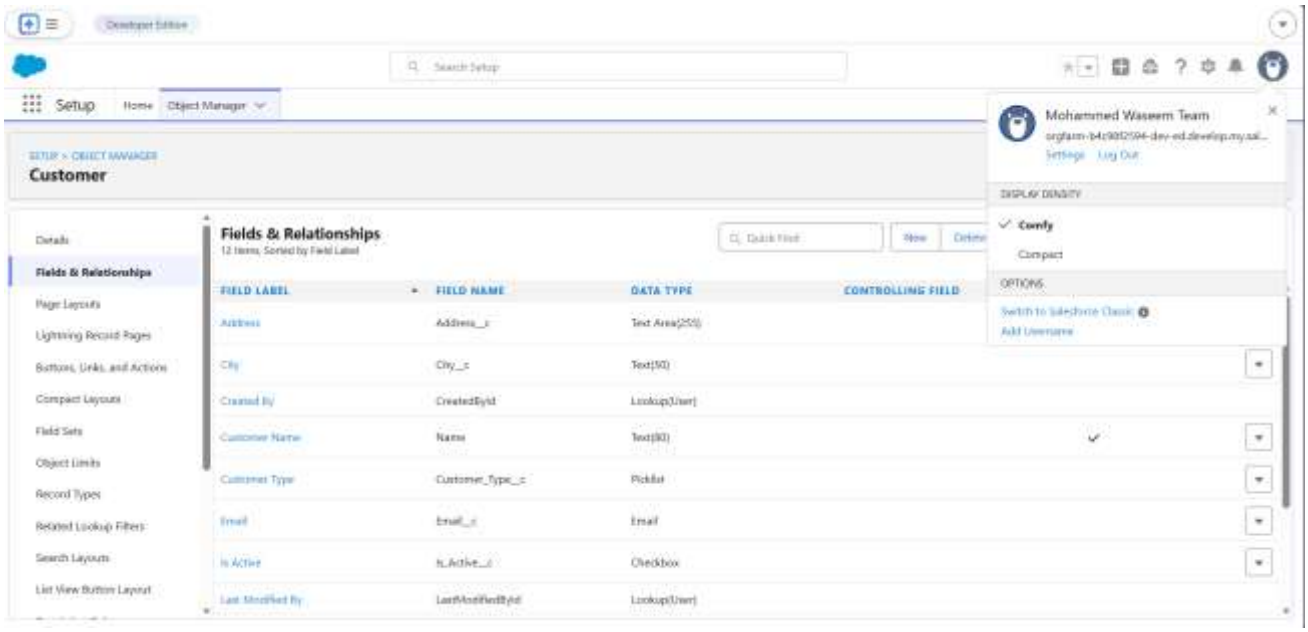
Created all six tabs:



Milestone 4: Fields & Relationships

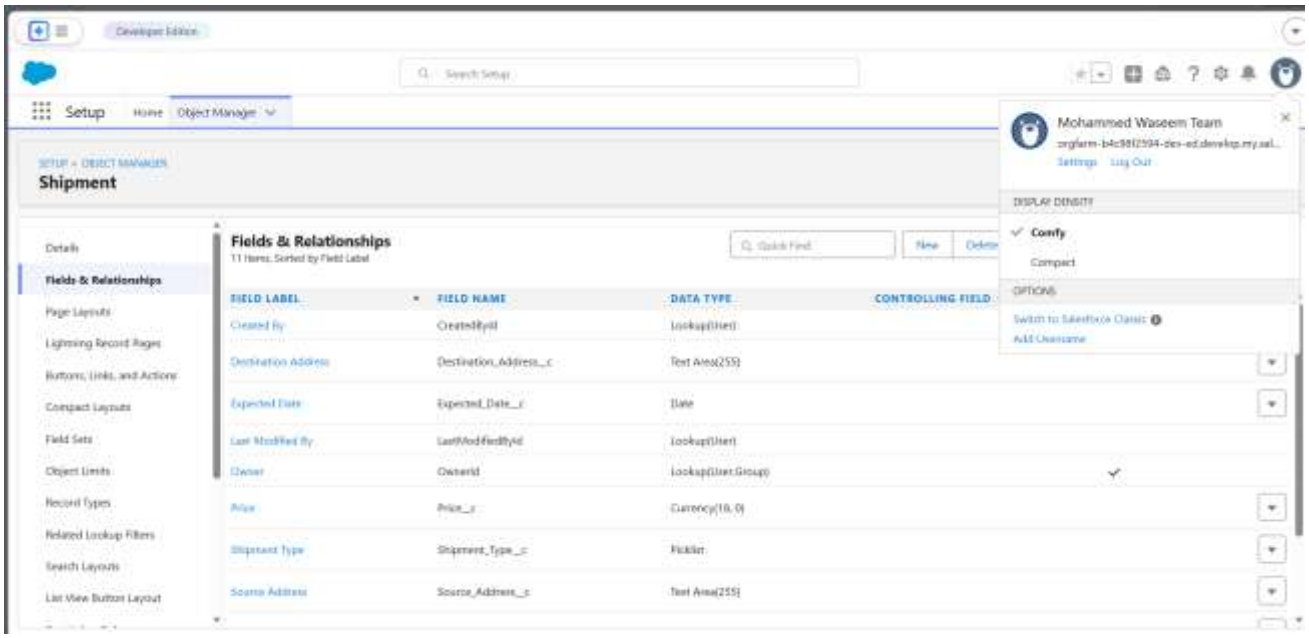
Activity 1: Creation of fields for the Customer Object

- Email
- Phone
- Address
- Customer type
- City
- State
- Pincode
- Is active



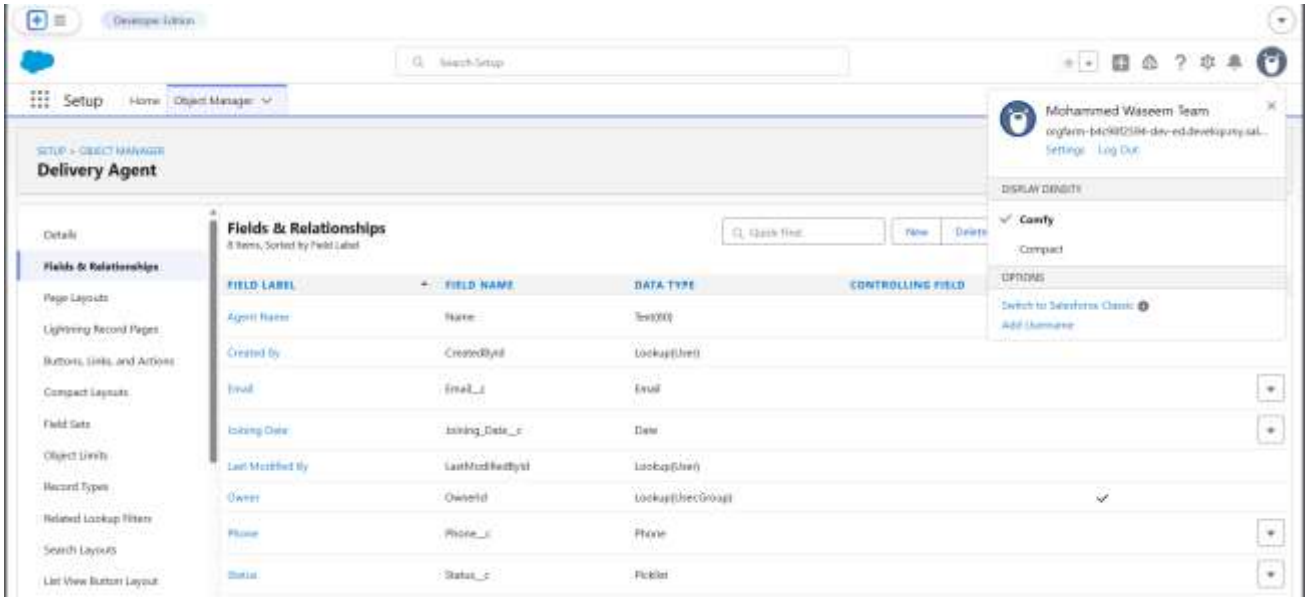
Activity 2: Creation of fields for the Shipment Object

- Source address
- Destination address
- Weight
- Price
- Status
- Expected date
- Shipment type



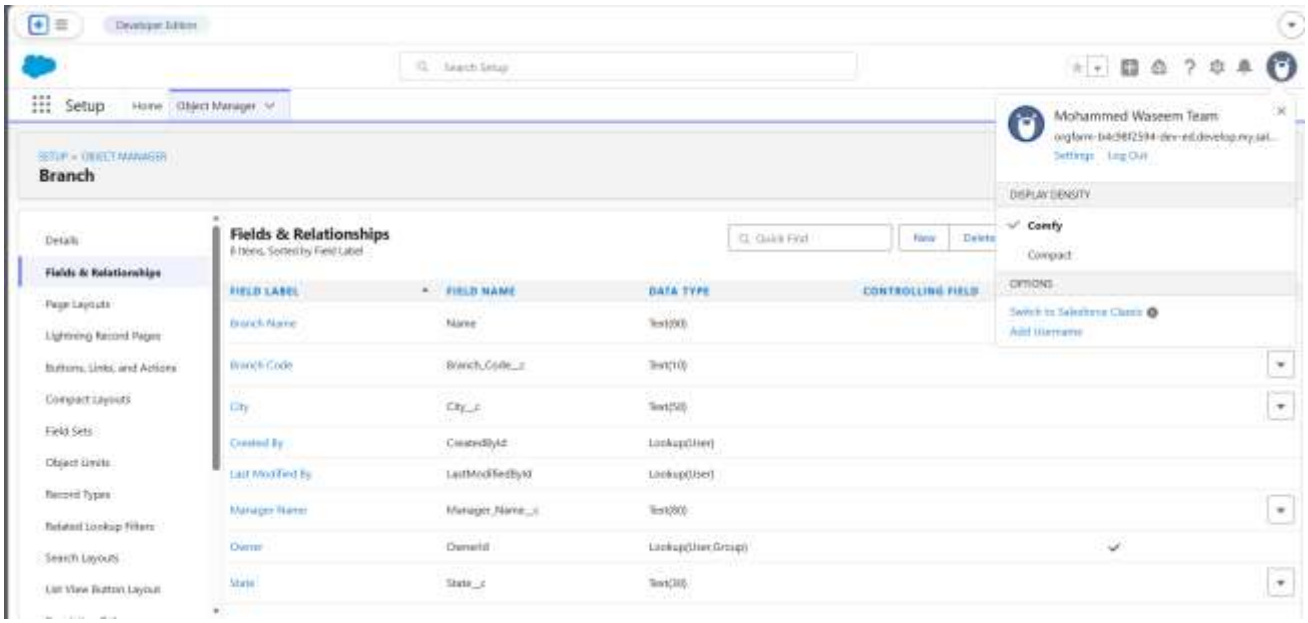
Activity 3: Creation of fields for Delivery_Agent Object

- Email
- Phone
- Status
- Joining date

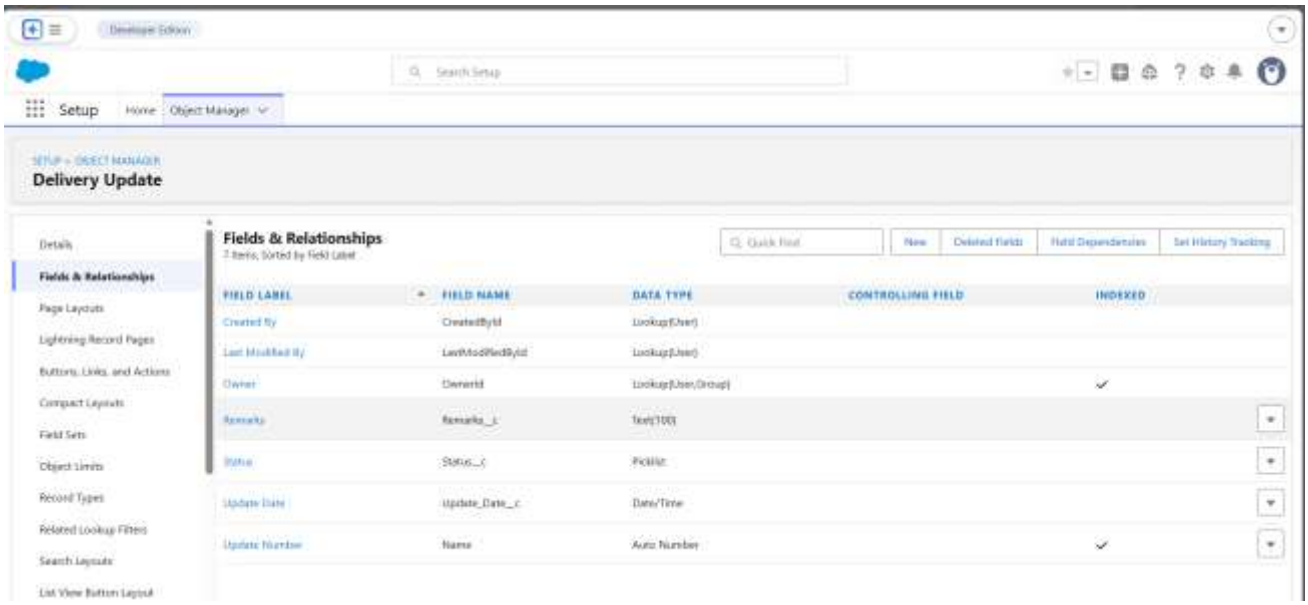


Activity 4: Creation of fields for Branch Object

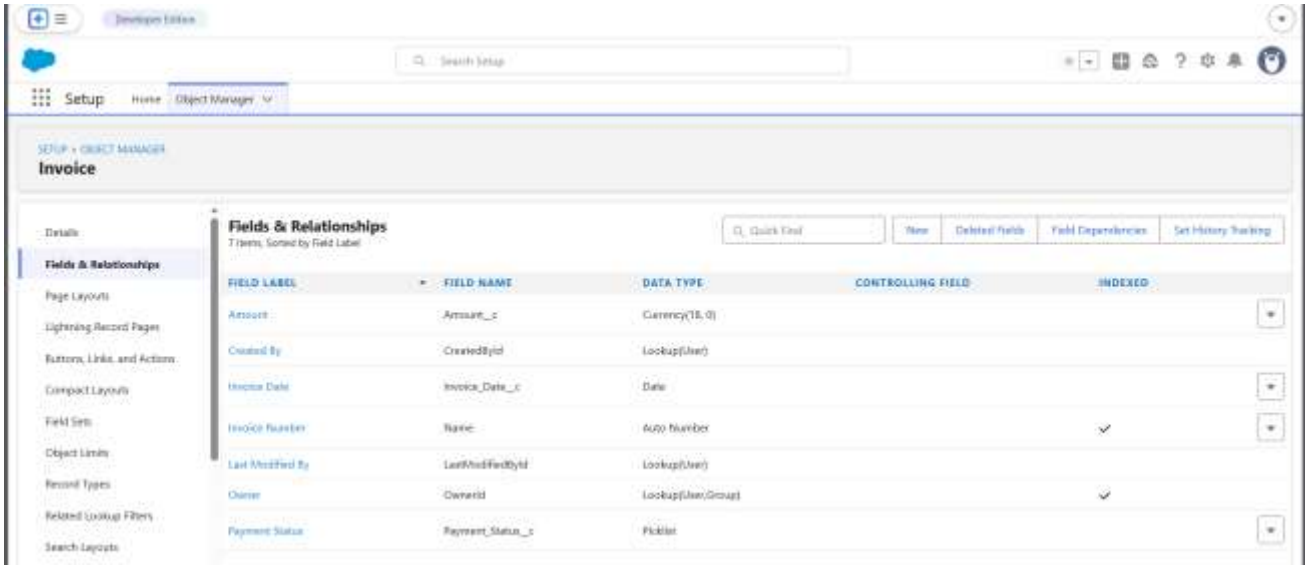
- Branch name
- Branch code
- City
- State
- Manager name



Activity 5: Creation of fields for Delivery_Update Object

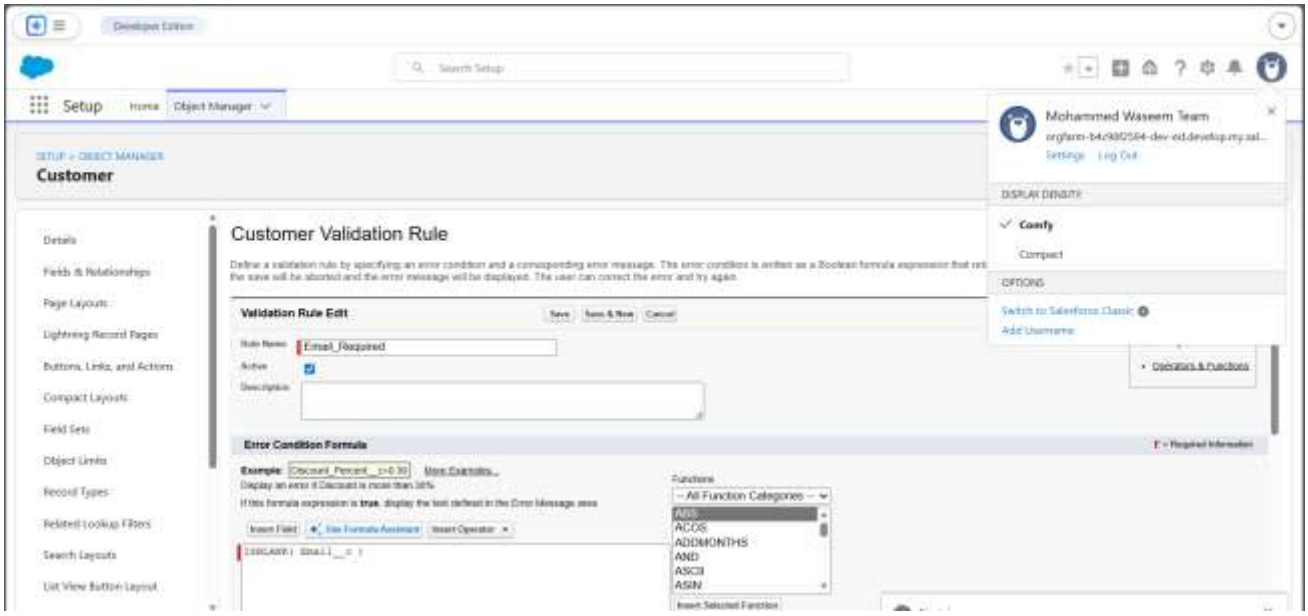


Activity 6: Creation of fields for Invoice Object

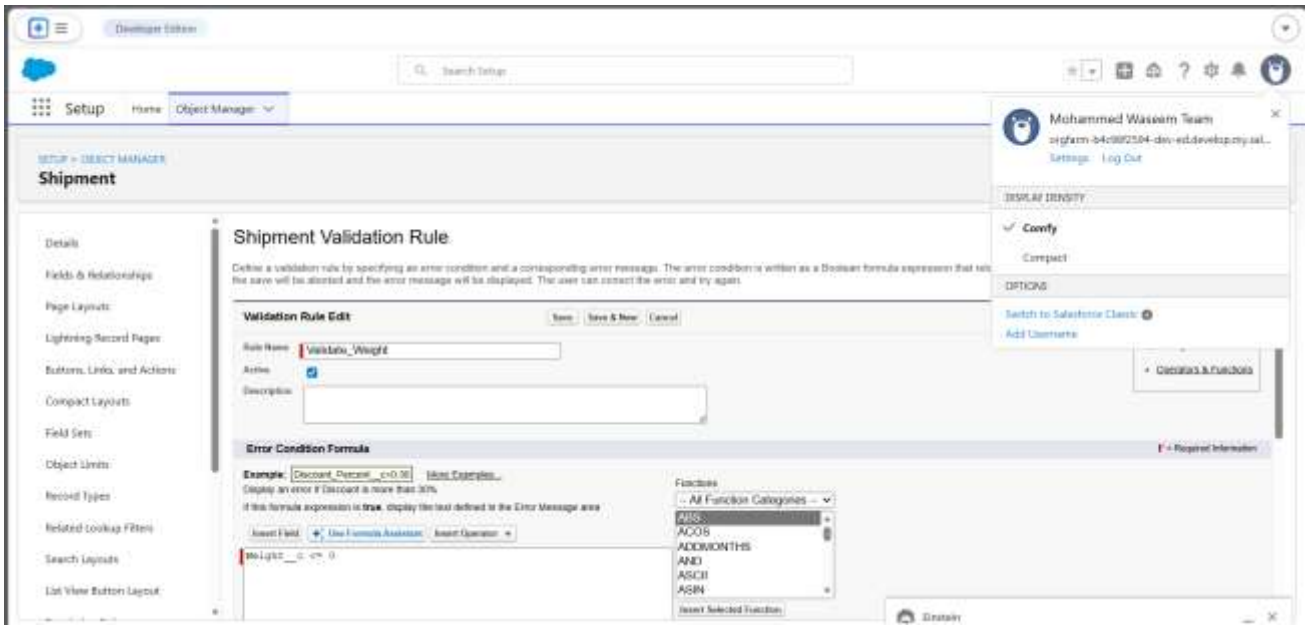


Milestone 5-Validation Rules :

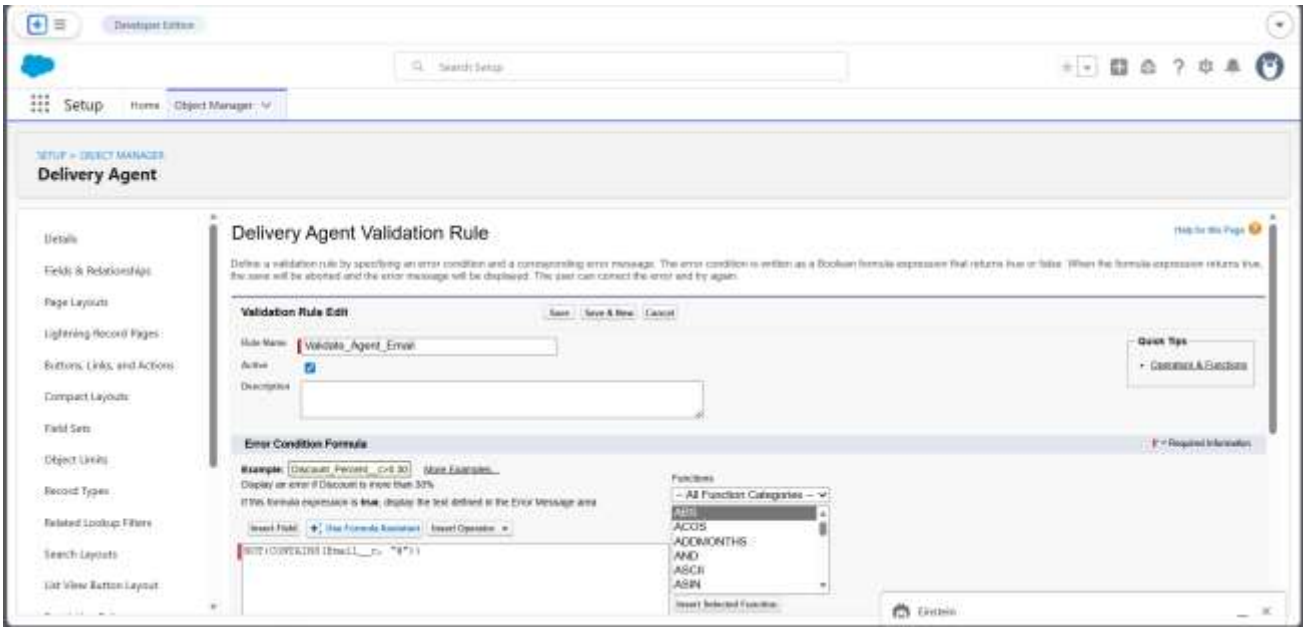
Activity 1: Creating Validation Rules on Customer__c



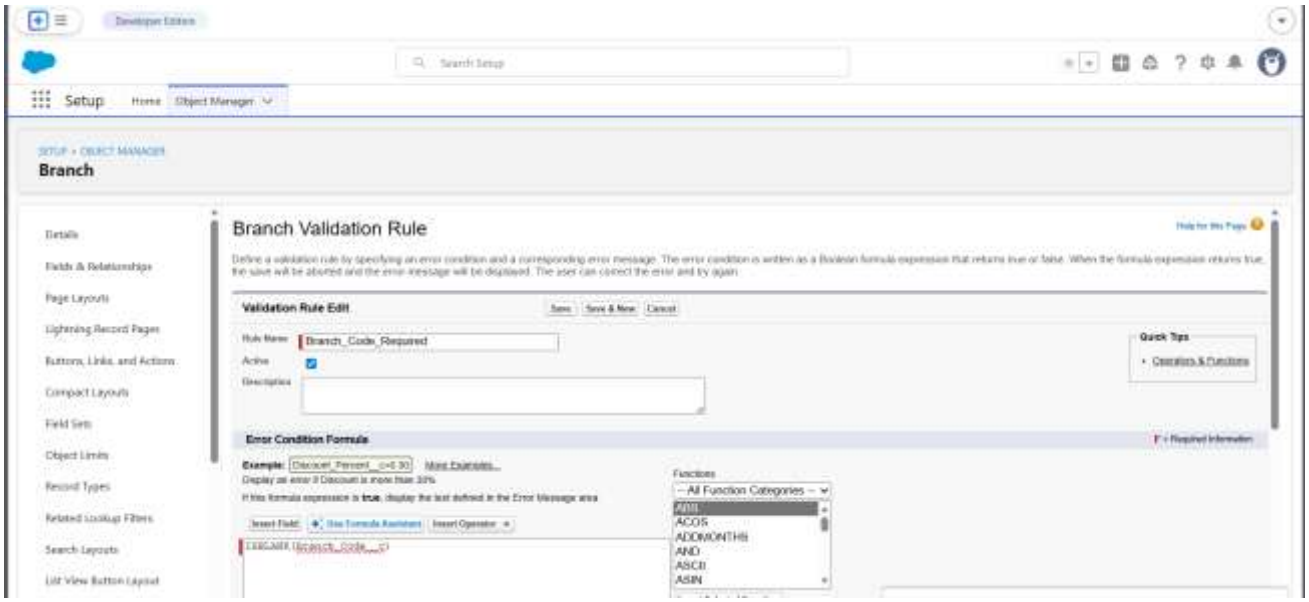
Activity 2: Creating Validation Rules on Shipment__c



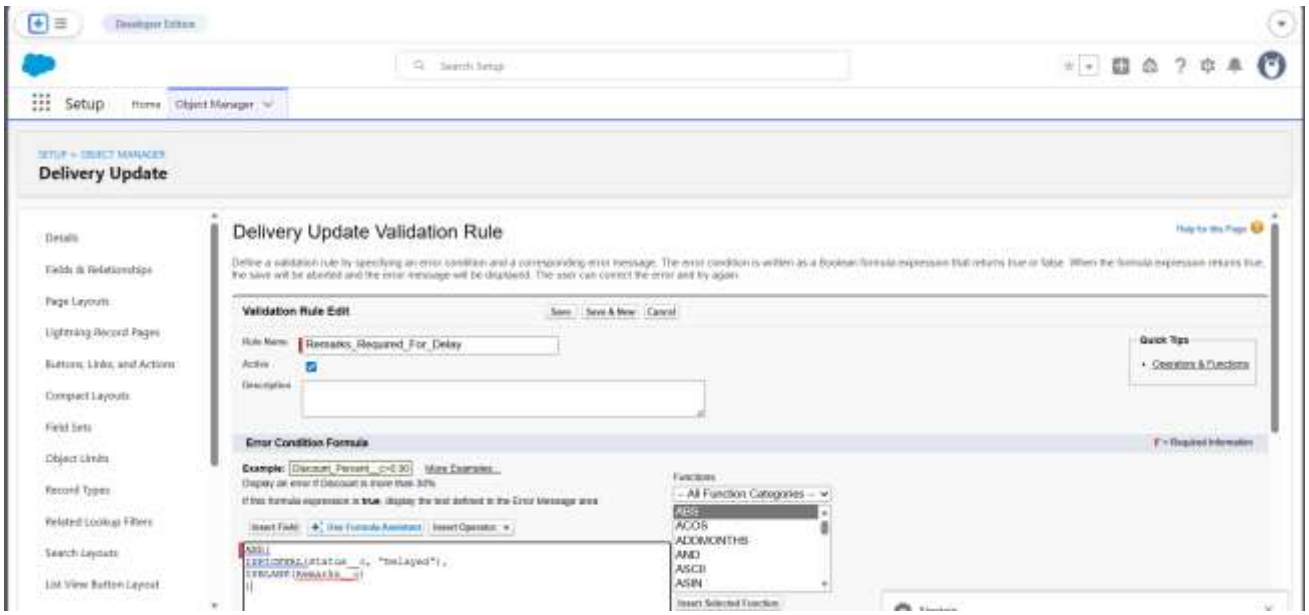
Activity 3: Creating Validation Rules on Delivery_Agent__c



Activity 4: Creating Validation Rules on Branch__c



Activity 5: Creating Validation Rules on Delivery_Update__c

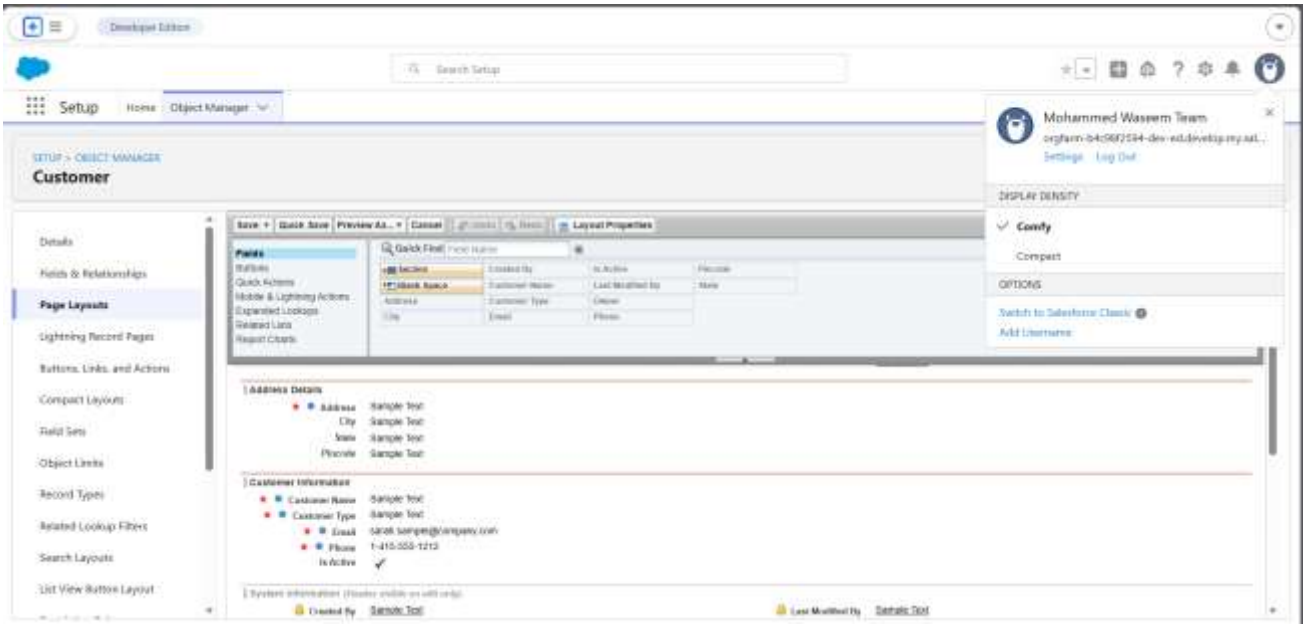


Milestone 6 - Page Layouts :

Activity 1: Editing Page Layout for Customer__c

Section 1: Customer Information

Section 2: Address Details

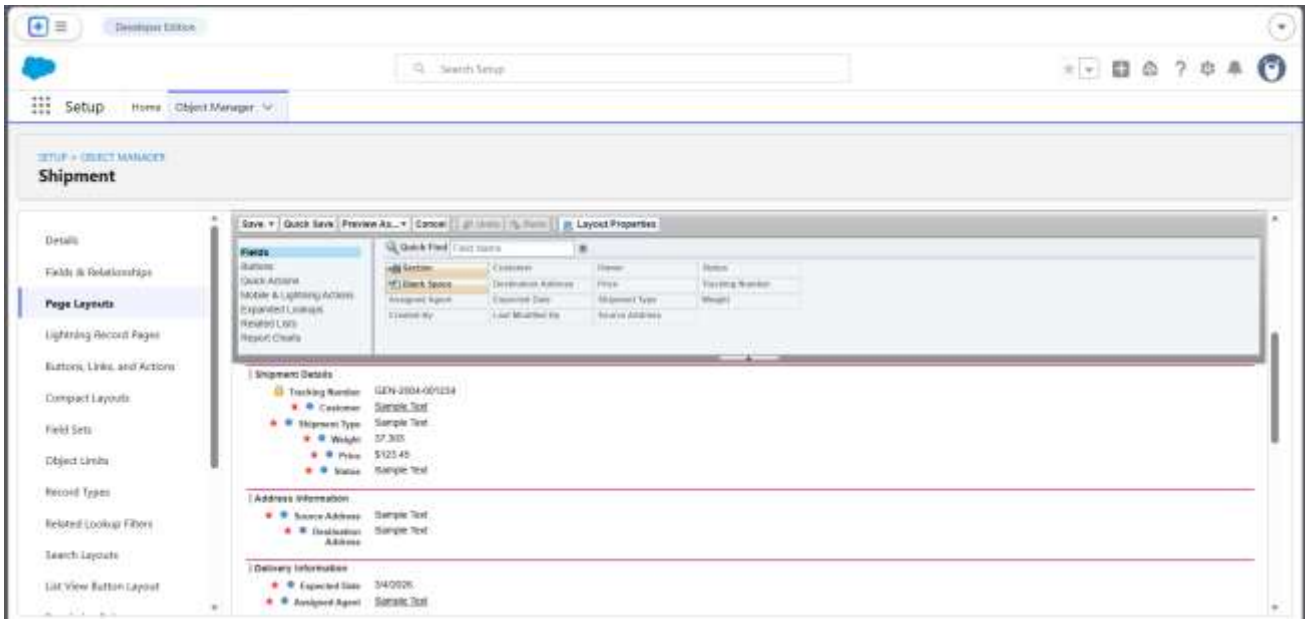


Activity 2: Editing Page Layout for Shipment__c

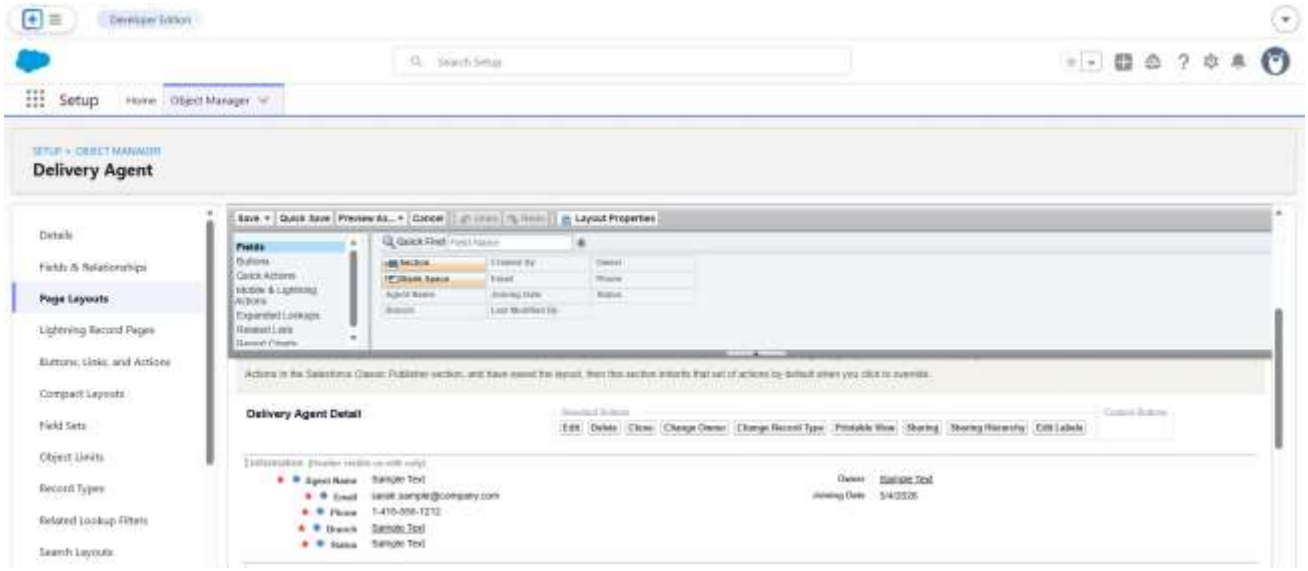
Section 1: Shipment Details

Section 2: Address Information

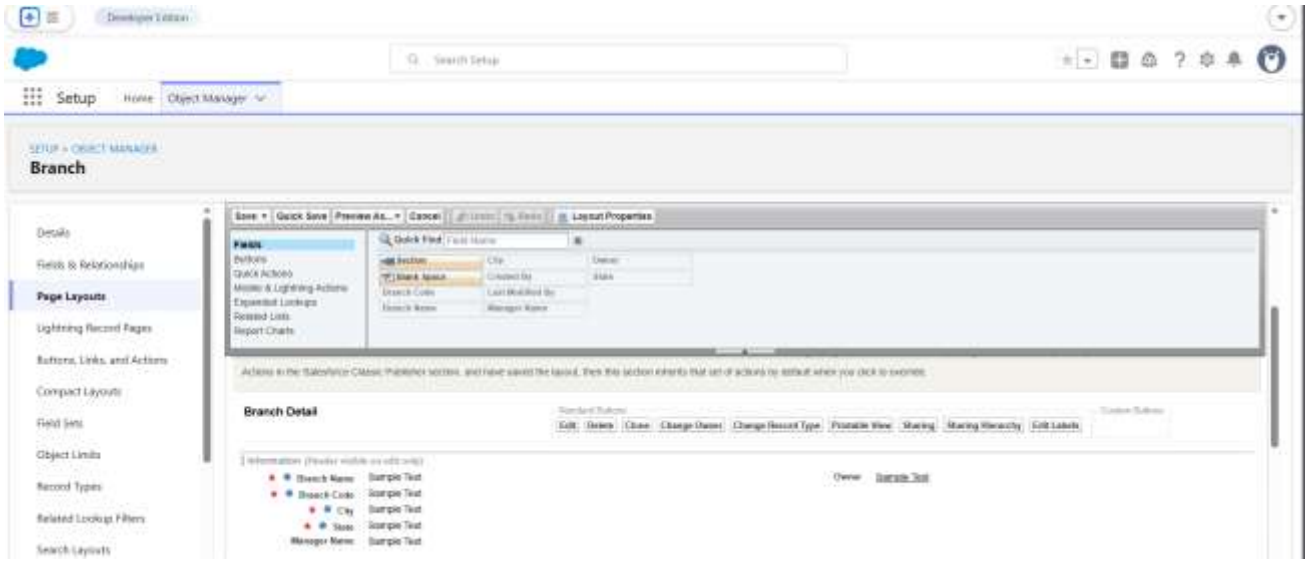
Section 3: Delivery Information



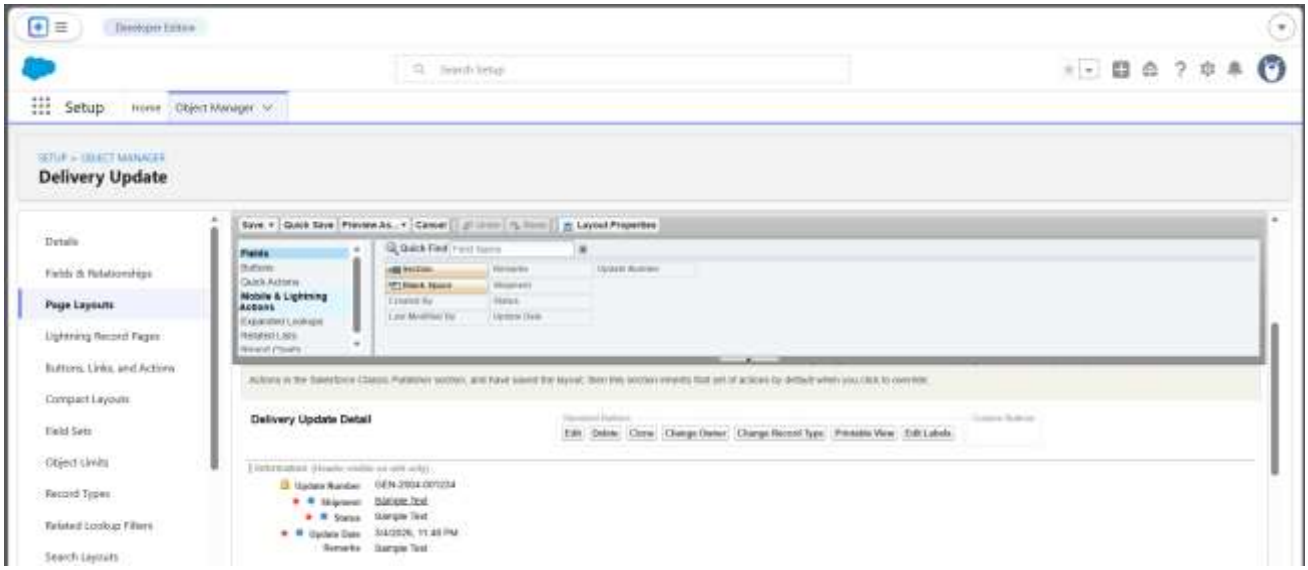
Activity 3: Edit Page Layout for Delivery_Agent__c



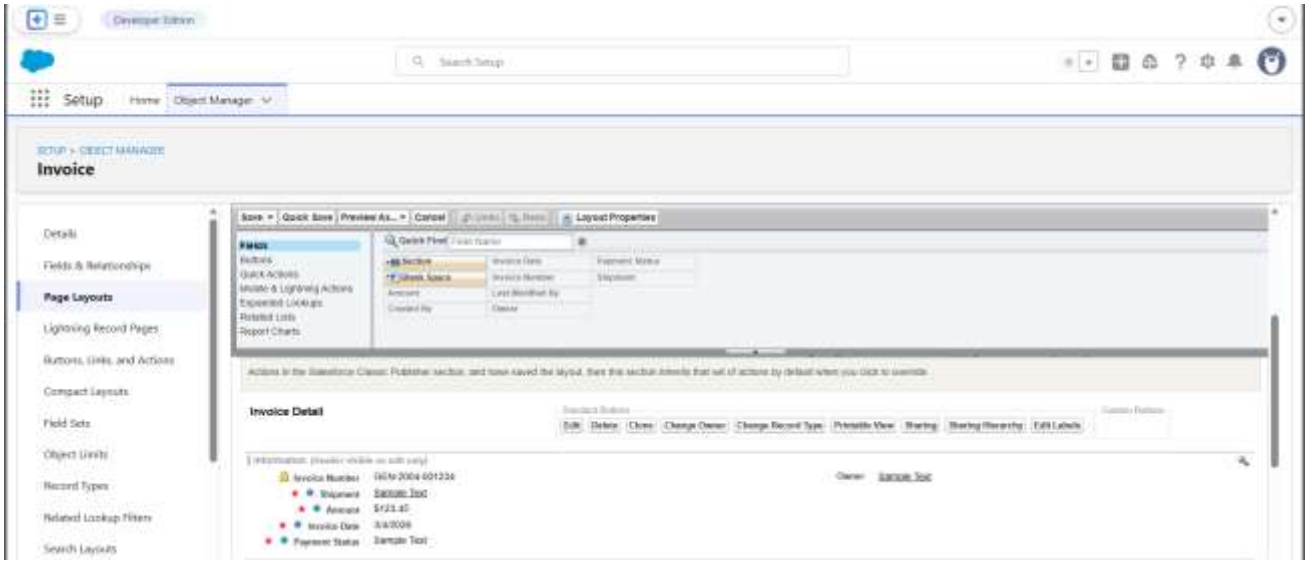
Activity 4: Edit Page Layout for Branch__c



Activity 5: Edit Page Layout for Delivery_Update__c

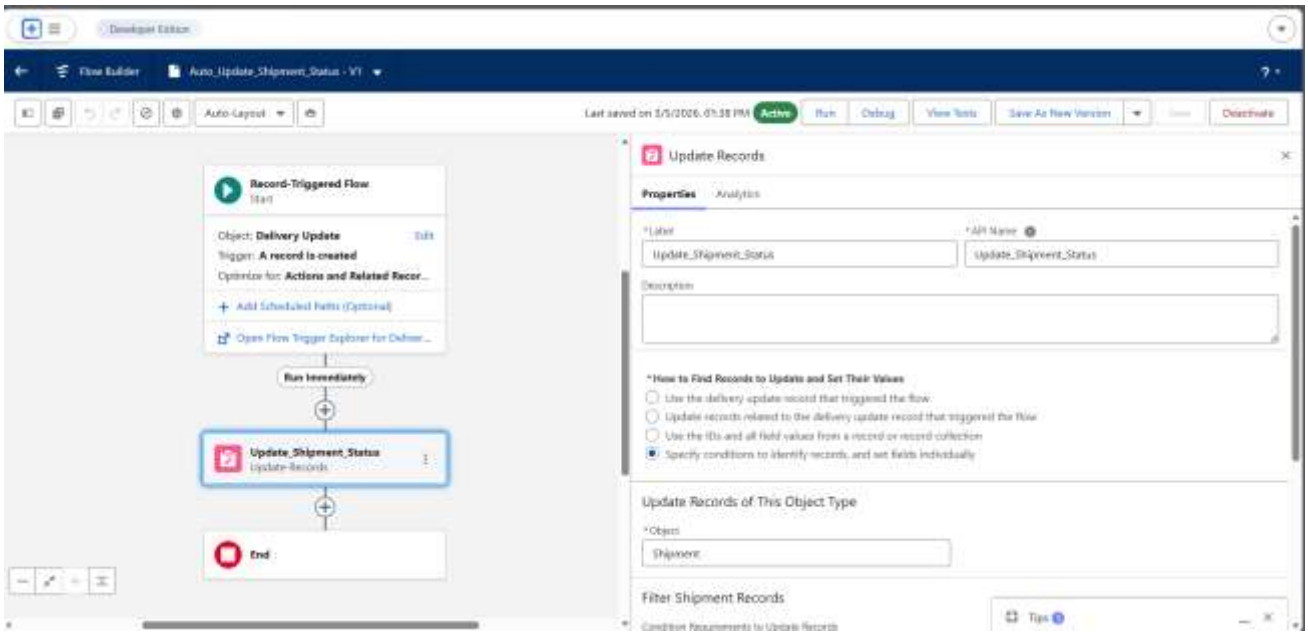


Activity 6: Edit Page Layout for Invoice__c



Milestone 7 – Flows

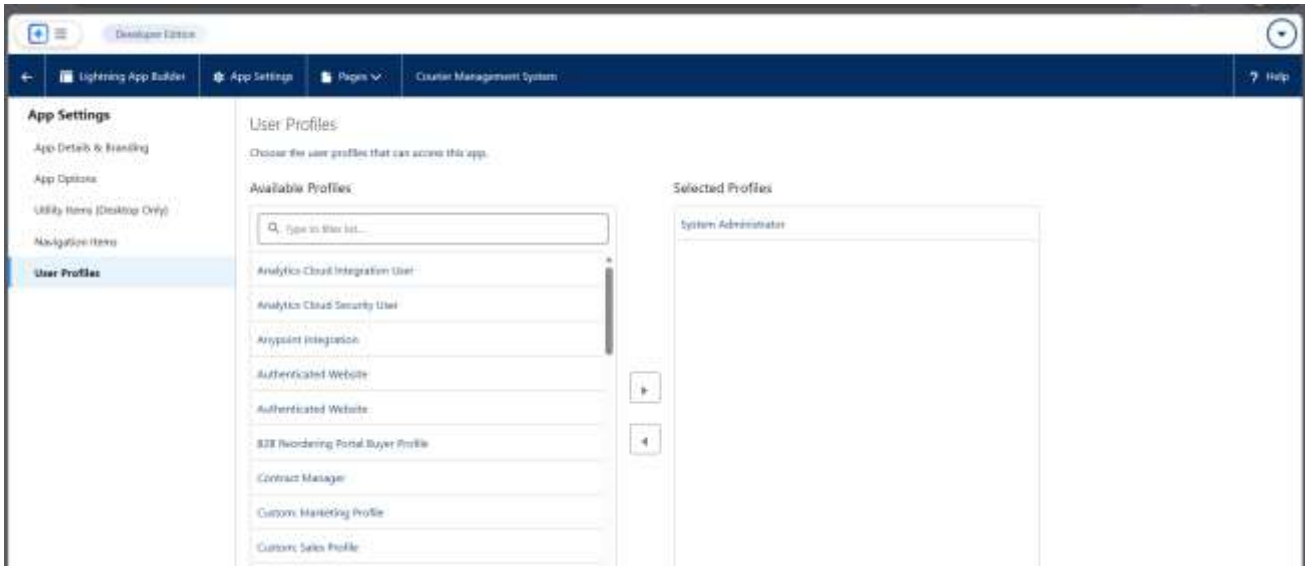
Created and activated the Record-Triggered Flow



Milestone 8 - The Lightning App :

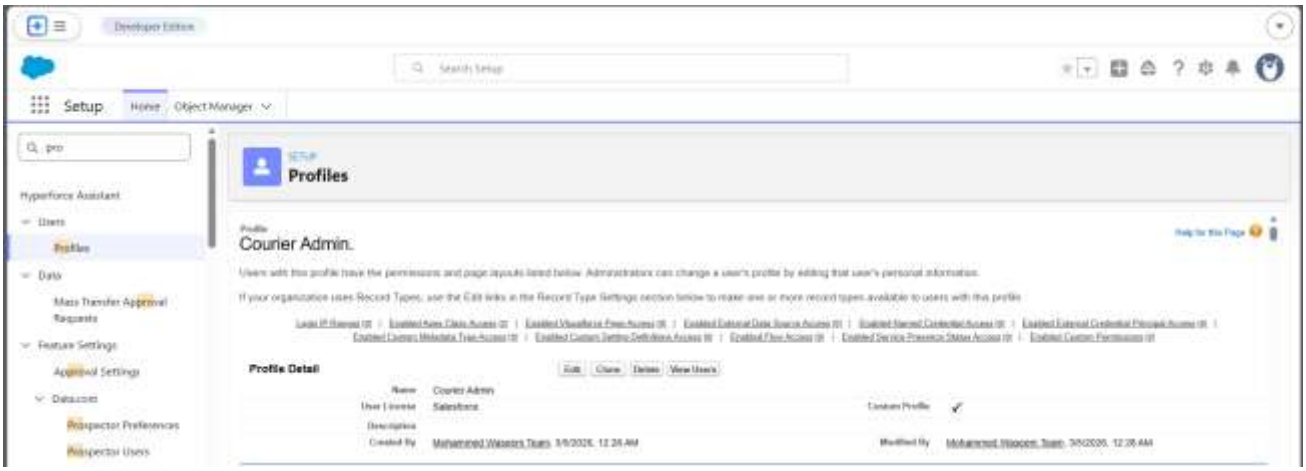
Activity 1: Creating a Lightning App

Creating the Courier Management System App

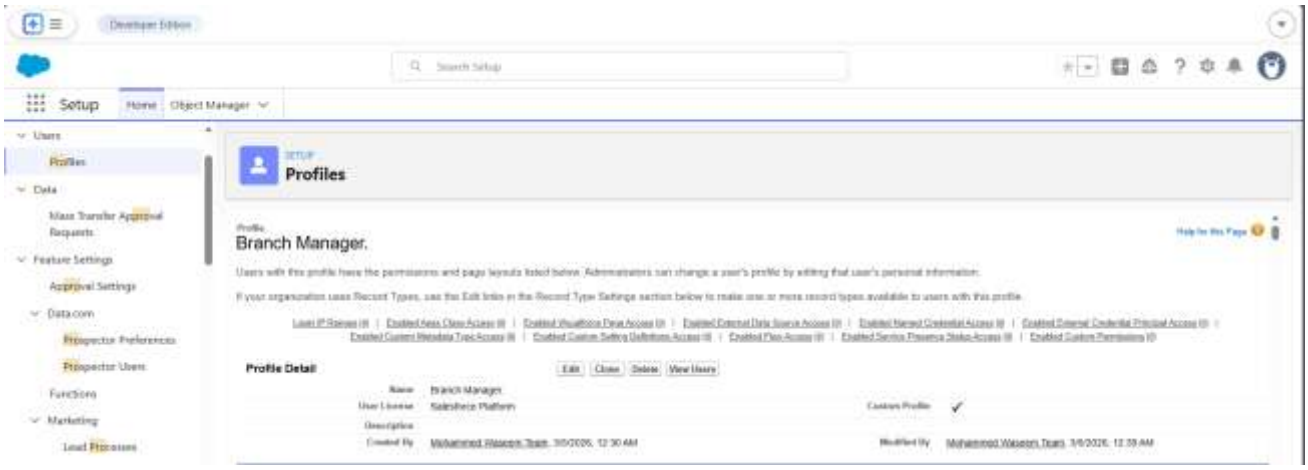


Milestone 9- Profile:

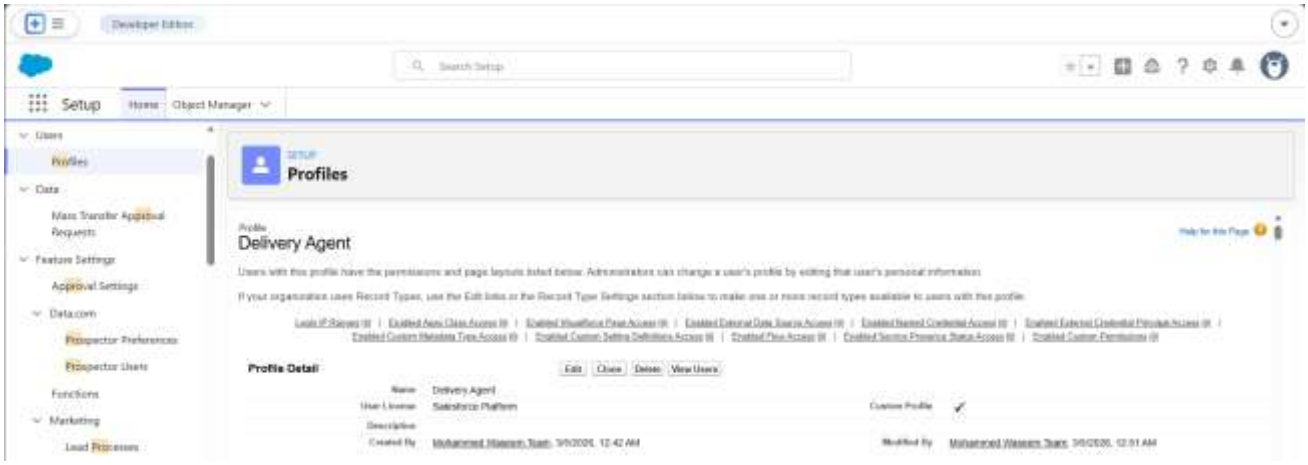
Activity 1: Creating a Custom Profile – Courier Admin



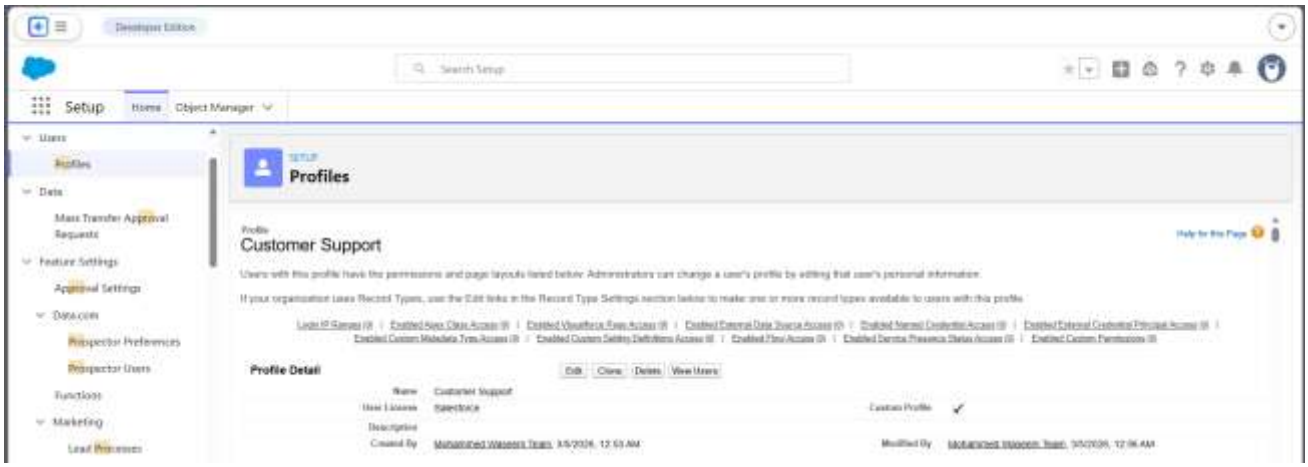
Activity 2: Created a Custom Profile – Branch Manager



Activity 3: Created a Custom Profile – Delivery Agent

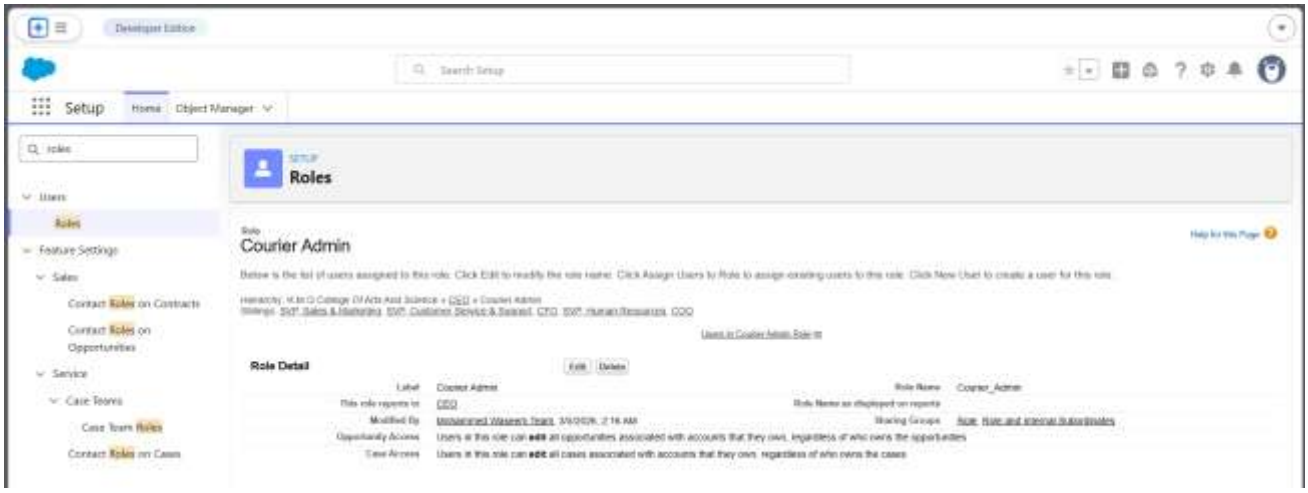


Activity 4: Created a Custom Profile – Customer Support

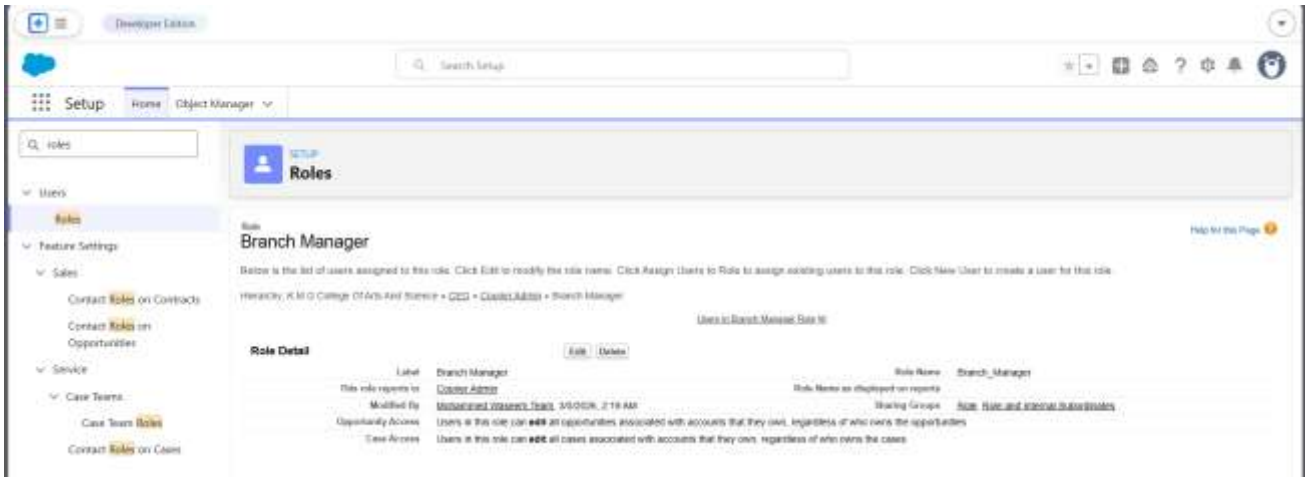


Milestone 10- Role:

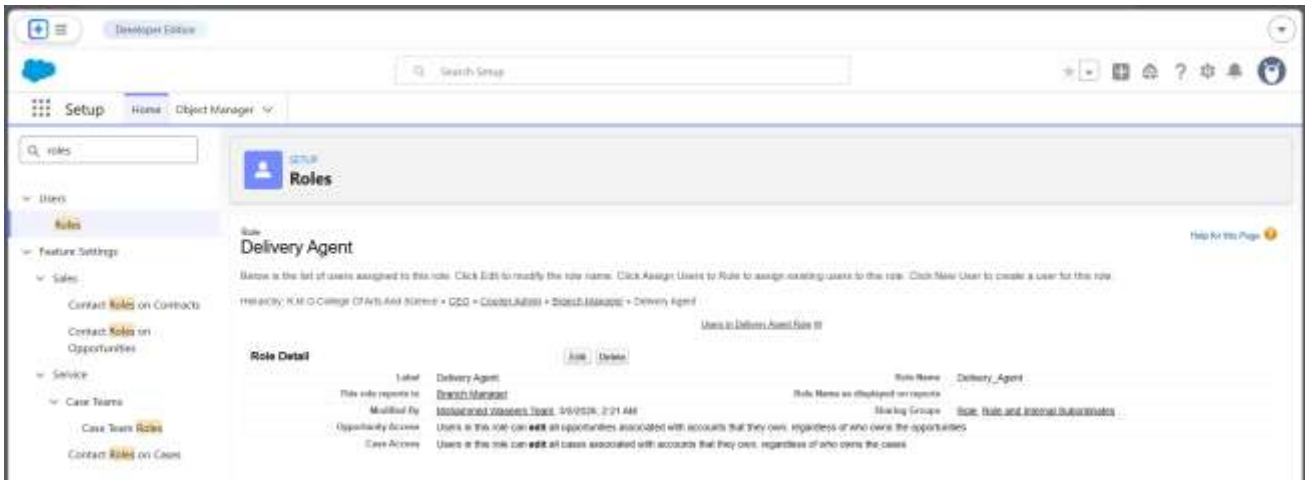
Activity 1: Creation of Courier Admin Role



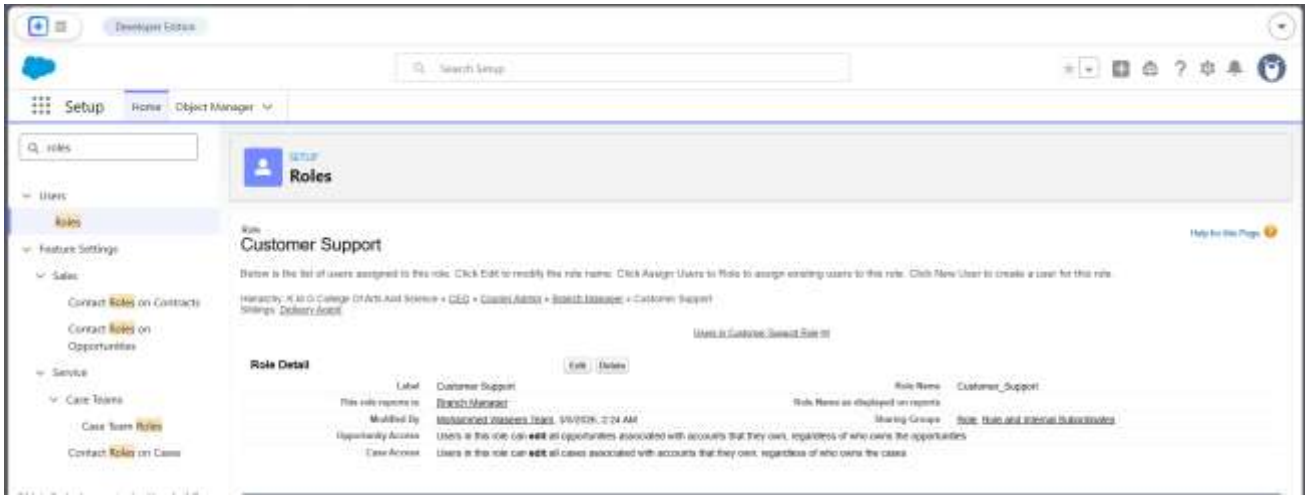
Activity 2: Creating Branch Manager Role Under Courier Admin Role



Activity 3: Creating Delivery Agent Role Under Branch Manager Role

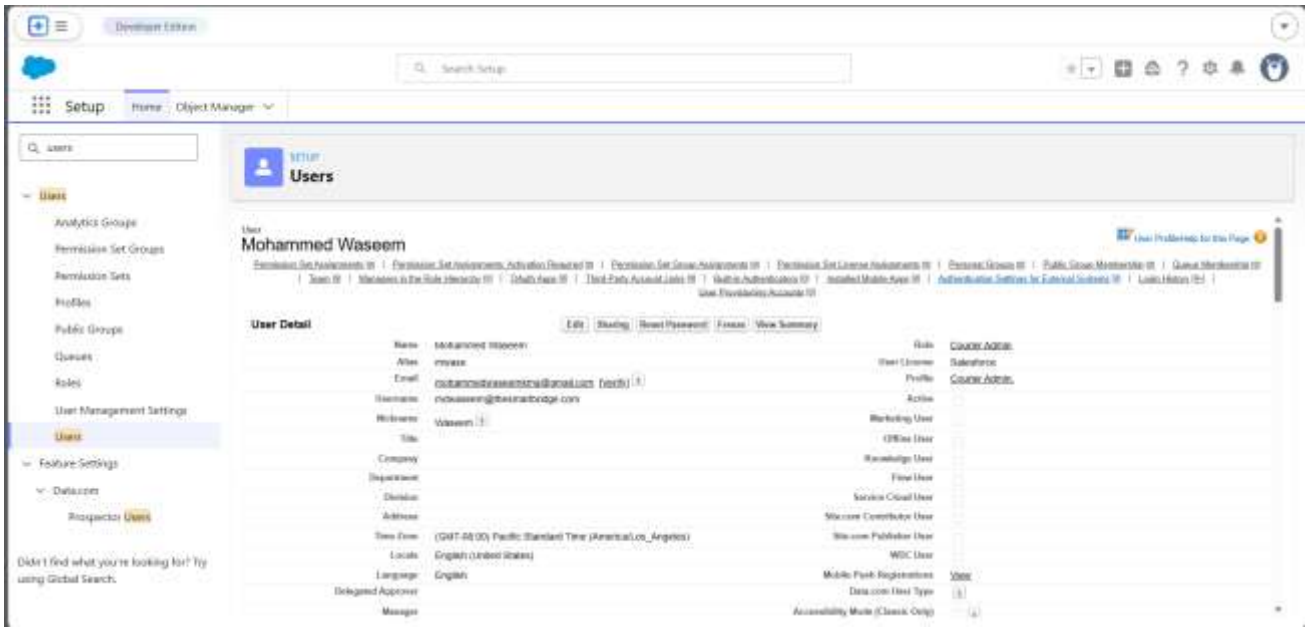


Activity 4: Creating Customer Support Role Under Branch Manager

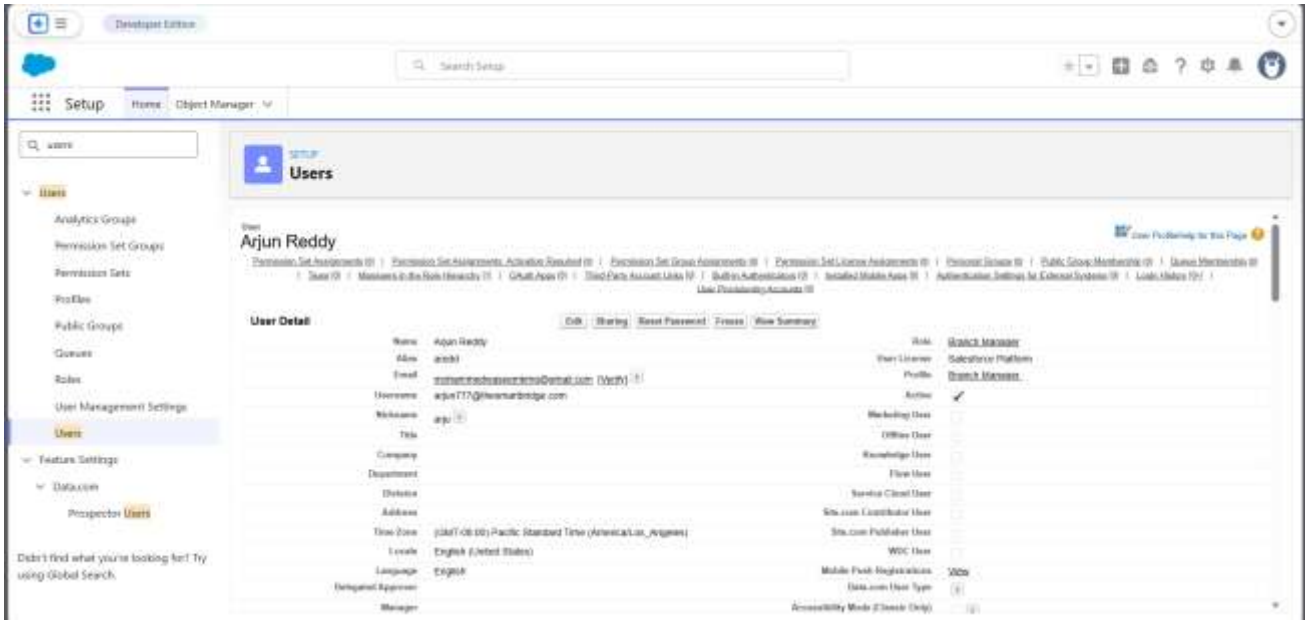


Milestone 11- User :

Activity 1: To Create a User



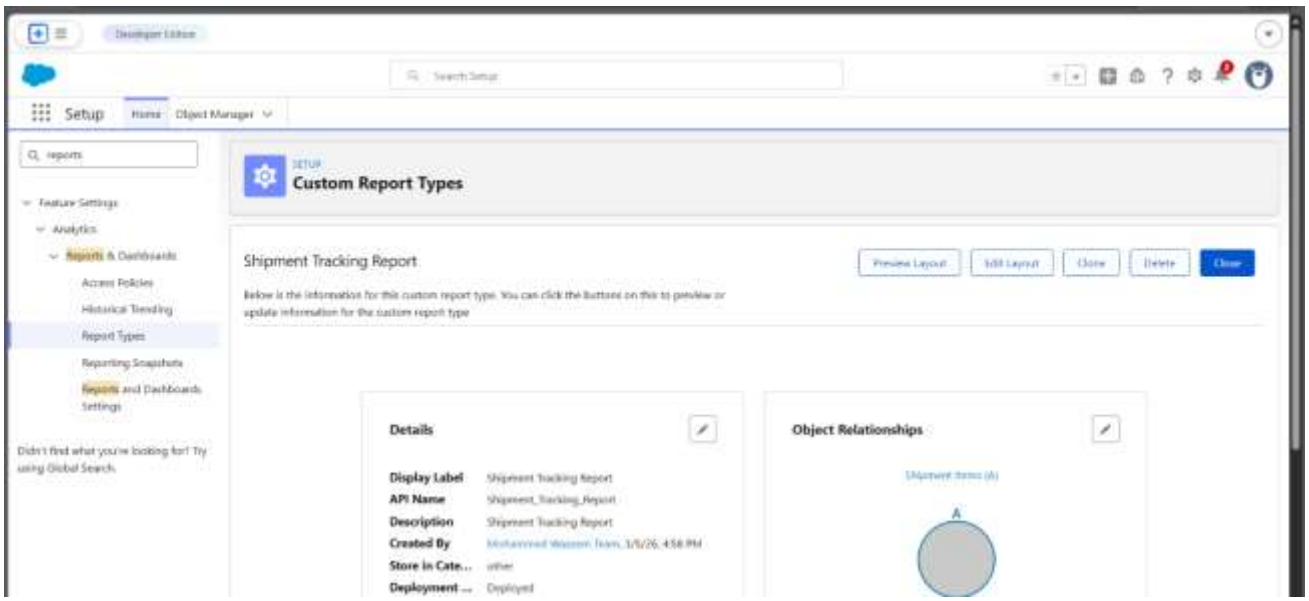
Activity 2: Creating Other Users



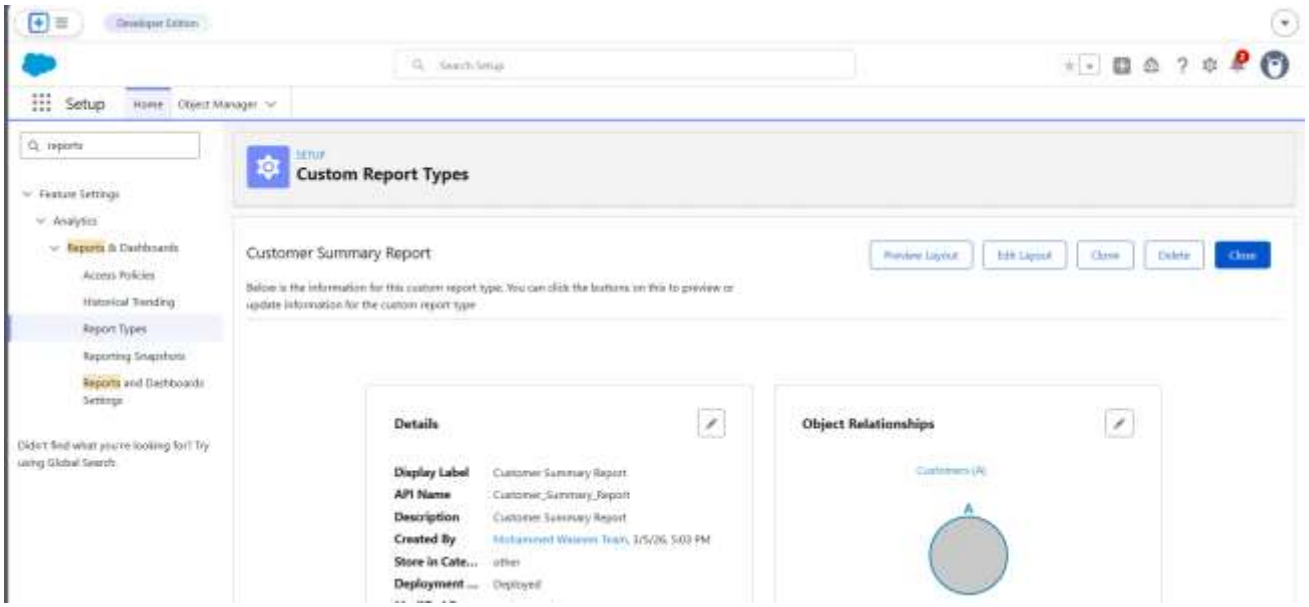
Milestone 12 : Reports & Dashboards

Activity 1: Create Report Types

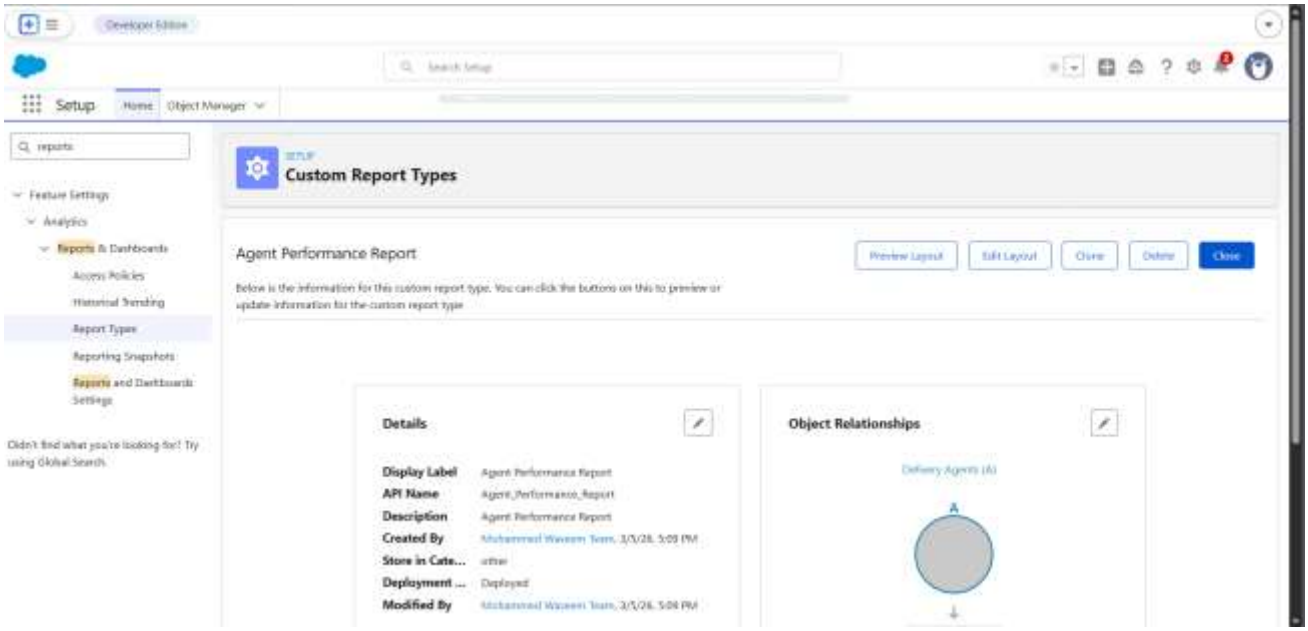
Created Shipment Report Type



Created Customer Report Type

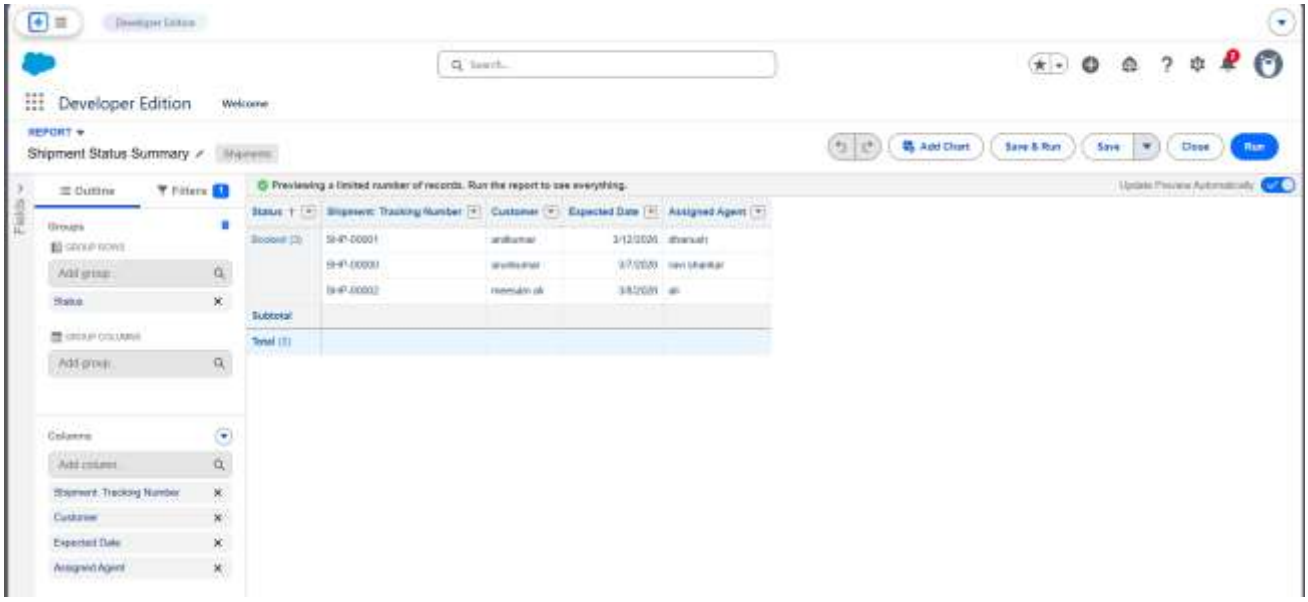


Created Agent Performance Report Type



Activity 2: Create Reports

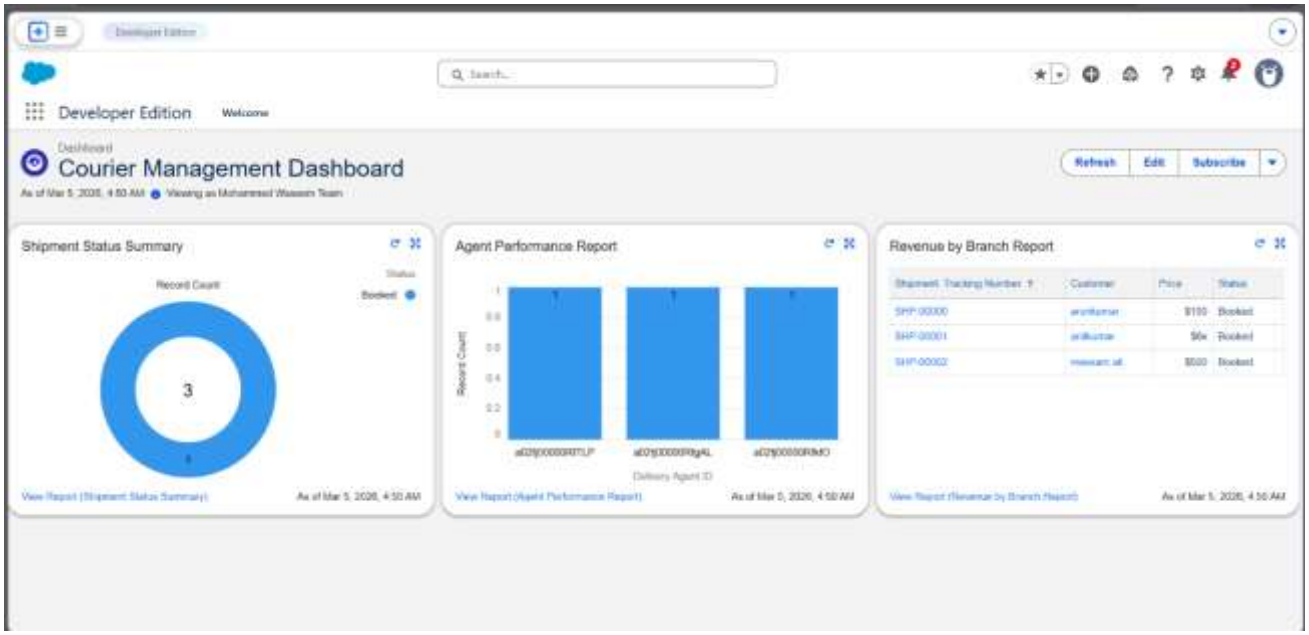
Report 1: Shipment Status Summary Report



FUNCTIONAL & PERFORMANCE TESTING

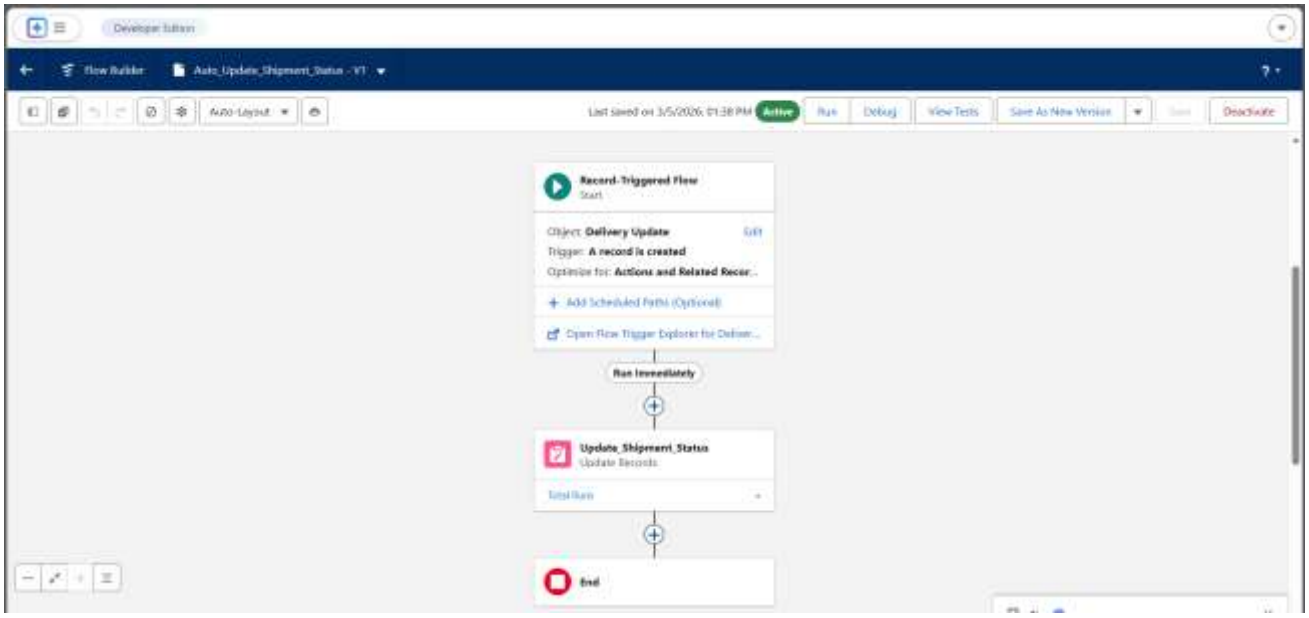
Dashboard & Visualization

It is more easy to understand and maintain courier details for customers to maintain their various shipments , performance reports and revenue by branch reports and more.



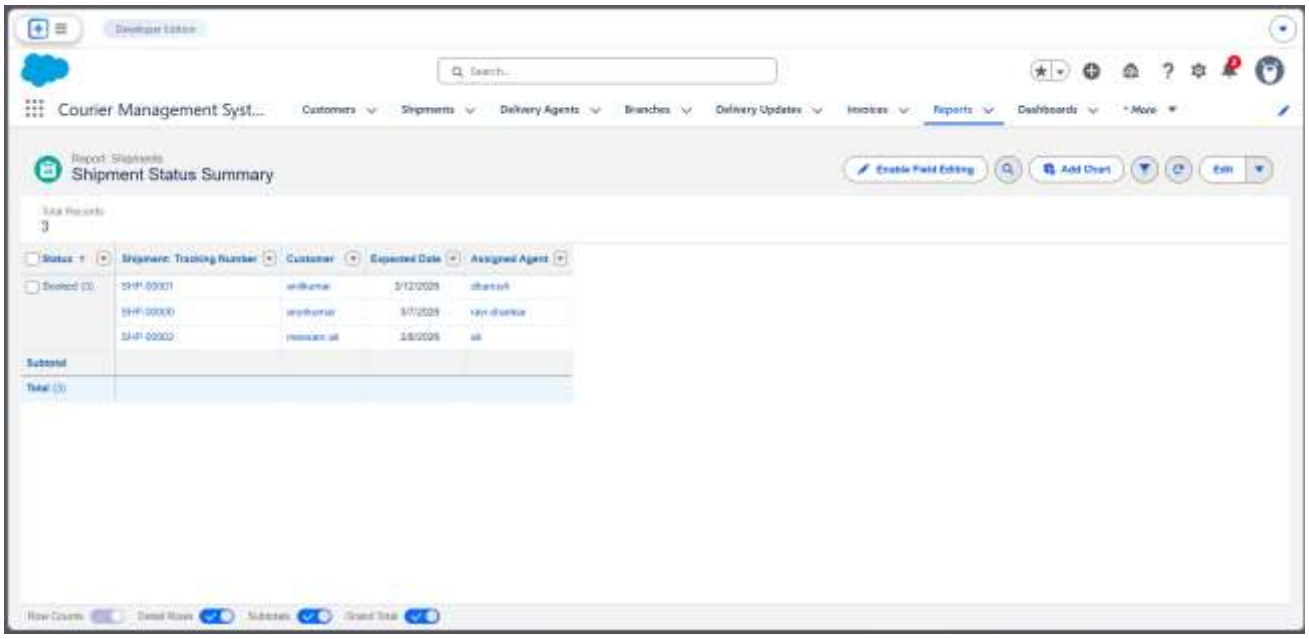
Flow Automation

- Here you can automate the tasks using flow automation



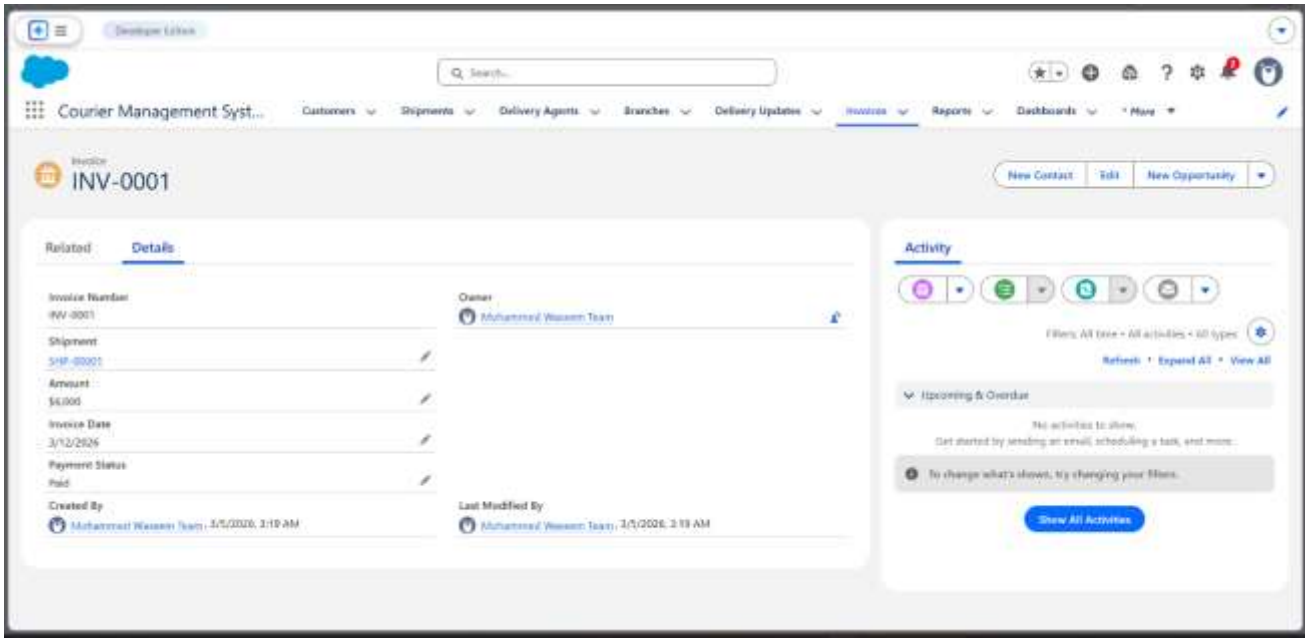
delivery status updates

- The shipment and delivery status can be viewed in this given screenshot



Invoice generation

- While creation of customer and shipments Its helpful to create a Invoice Record which helps to see the shipment details , amount , Invoice date etc.



Conclusion:

The Courier Management System successfully digitizes courier operations using Salesforce automation, improving efficiency, accuracy, and customer satisfaction.
